

Job Gauge Details

Faerie Gauge

Using the action **Summon Seraph** replaces Eos with Seraph. The **Faerie Gauge** will indicate how much time remains before she must return.

The **Faerie Gauge** displays the current amount of fae aether accumulated within a faerie. Fae aether is accumulated by using actions such as **Lustrate** and **Excogitation** in combat, depleting the **Aetherflow Gauge**. Maintaining an **Aetherpact** consumes fae aether.

Aetherflow Gauge

Using the action **Aetherflow** fills the **Aetherflow Gauge**, which is required to use certain actions.

You can view the job gauge description at any time from the Actions & Traits menu.

Upgrades

Actions registered high on the list are upgraded to those below them with the acquisition of traits.
